

15th Dusty Plasma Workshop

May 29th to June 1st, 2018
Baltimore, Maryland, USA

Join us for an exciting meeting covering all topics of dusty plasmas, including:

- Basic dusty plasma theory
- Experimental dusty plasmas
- Computational dusty plasmas
- Astrophysical, atmospheric dusty plasmas
- Diagnostics and data processing
- Commercial, medical, industrial applications of dusty plasmas

Abstract submission, registration, and other conference details will follow shortly, and will be posted at <http://wpdp.umbc.edu/>.
